Nineteen Automotive Training Programs Adopt CCAR's S/P2 in December

CCAR's "S/P2" online training in Safety and Pollution Prevention, which is provided free of charge to automotive training programs, added 19 new schools in December 2005. S/P2 is now available to more than 2,300 schools across the country.

OVERLAND PARK, KAN. – The Coordinating Committee For Automotive Repair announces that 19 schools registered in December to utilize CCAR's **S/P2** online training in Safety and Pollution Prevention in their automotive training programs. The new schools include:

- Ann Arbor Pioneer High School, Ann Arbor Mich.
- Atamaha Technical College, Baxley, Ga.
- Big Sandy Community and Technical College, Pikeville, Ky.
- Clearfield Job Corps, Clearfield, Utah.
- El Capitan High School, Lakeside, Calif.
- Fort Simcoe Job Corps, White Swan, Wash.
- Fox Valley Career Center, Maple Park, Ill.
- High Plains Technical Center, Woodward, Okla.
- North Lawrence Career Center, Bedford, Ind.

- National Institute of Technology, Long Beach, Calif.
- Olympic High School, Bremerton, Wash.
- Osborne High School, Marietta, Ga.
- Palm Beach Community College, Lake Worth, Fla.
- Robert E. Lee High School, Montgomery, Ala.
- Roswell Job Corps Center, Roswell, N.M.
- Southeast Applied Technology, Castle Dale, Utah
- St. Phillips College, San Antonio, Texas
- Tennessee Technical College at Jackson, Jackson, Tenn.
- Viewmont High School, Bountiful, Utah

CCAR[®] offers **S/P2** free of charge to automotive training programs, and there are currently 2,372 schools across the U.S. enrolled in **S/P2**, representing a student population of more than 196,000. **S/P2** was developed by CCAR[®] in accord with U.S. EPA and OSHA standards, which require shop personnel and students to be trained at least annually on safety and environmental regulations. For businesses, **S/P2** is available for a \$299 annual subscription per facility. The **S/P2** courseware tracks technician/student progress through the training, grades tests and is regularly updated as changes occur in federal and state laws.

“We applaud those schools that have already been using **S/P2** and welcome the new additions,” said Robert G. Stewart, CCAR president. “Providing students with the knowledge of how to be EPA and OSHA compliant before they enter into the workforce is how CCAR is changing the automotive repair industry for the better.”

CCAR, a 501(c)(3) not-for-profit organization, also operates “CCAR-GreenLink[®],” the National Environmental Compliance Assistance Center for Automotive Repair, in cooperation with the U.S. Environmental Protection Agency [EPA].

For complete information, visit the **S/P2** web site at www.sp2.org website or call toll-free at 1-866-477-2669.
